INTRODUCTION

Get ready to rewind the past and fast forward the future at D^3 Techno Fest!

Brought to life by the Tech and Robotics Societies of IIIT Bhubaneswar, D^3 is not just a fest; it's a four day symphony of arcade aesthetics and futuristic innovation. Dive into a world where vintage charm meets tomorrow's tech, crafted for dreamers, doers, and disruptors across tech, management, and entrepreneurship. Whether you're channeling 80s arcade energy or pioneering the next big breakthrough, D^3 is your stage. It's not just an event; it's your evolution in motion.

Did we mention the jaw dropping prizes !?

Buckle up for a high voltage ride packed with retro flair, modern sparks, and mind blowing rewards! From quirky challenges to creative showdowns,
D^3 promises endless fun, innovation, and memories that'll stick with you like your favorite cassette jam.

EVENTS

TECHNICAL EVENTS

CraftNCode'26

Gear up for the ultimate National level Hackathon, CraftNCode'26!
This national level competition invites brilliant minds from across the country to innovate, collaborate, and solve real world challenges. Over 24 hours of non stop coding, you'll build creative solutions, compete with top talents, and showcase your skills to industry leaders.

Ready to code your way to glory? Let's Hack!

Code Kombat

Code Kombat is an ICPC (International Collegiate Programming Contest) inspired programming competition where teams of coders come together to solve a series of algorithmic problems within a specified time limit. Each team works collaboratively to tackle a variety of computational challenges that test their coding skills, problem solving abilities, and efficiency in implementing algorithms. The competition fosters an intense yet rewarding environment, where strategy and teamwork are just as crucial as technical prowess.

EVENTS

TECHNICAL EVENTS

TechXpo

"Innovation on Display"

TechXpo is a curated exhibition where local startups and companies showcase their technology products and projects to a live audience. Whether you're a curious student or an aspiring entrepreneur, TechXpo offers a space to learn, connect, and get a firsthand glimpse into the region's growing tech ecosystem.

Come explore. Come connect. See what's being built.

Workshop.exe

Workshop.exe, part of the D^3 initiative, offers students a unique opportunity to engage in hands on learning with industry experts in cutting edge technologies such as Artificial Intelligence (AI), Blockchain, Web3, Augmented Reality (AR), and Virtual Reality (VR).

This workshop is designed to provide practical experience and in depth knowledge, allowing students to apply their learning in real world scenarios.

EVENTS

TECHNICAL EVENTS

Dev Dialogue

Join us for an inspiring Tech Talk where leading industry experts and innovators will dive into the latest trends and breakthroughs shaping the tech world. Whether you're a budding tech enthusiast or an experienced professional, this talk will spark new ideas, broaden your perspective, and give you a front row seat to the future of technology.

Get ready for a session packed with knowledge, innovation, and inspiration!

CTF Arena

Join the CyberSec Battle and demonstrate your cybersecurity expertise in protecting digital assets and national security. This competition challenges you to address critical issues like financial fraud, security breaches, national security threats, and emerging cyberattacks. Showcase your skills in preventing illicit activities, safeguarding sensitive information, protecting critical infrastructure, and combating advanced threats. Compete with fellow cybersecurity professionals and contribute to a safer digital world.

EVENTS

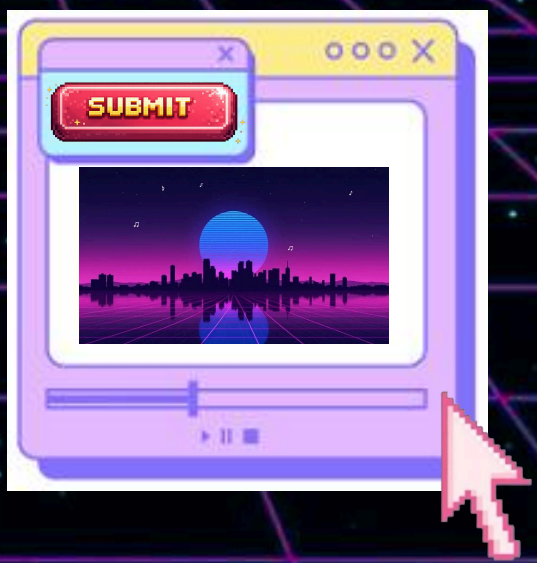
TECHNICAL EVENTS

UI UX Showdown

A UI UX design competition that challenges participants to transform ideas into intuitive and visually compelling digital experiences.

Given a real world problem statement or scenario, participants must research, ideate, and create user centric interface designs that effectively address the challenge. The event emphasizes creativity, usability, accessibility, and design thinking, providing a platform for non coders to showcase their problem solving abilities through design.

Success lies not only in creating aesthetically pleasing interfaces but also in delivering seamless and meaningful user experiences.



EVENTS

ROBOTICS EVENTS

Bot Bowl

Step into the arena where innovation meets competition!

This adrenaline charged RoboSoccer challenge tasks teams with designing and operating bots to dribble, pass, and score in a mini soccer field. It's a battle of agility, strategy, and engineering finesse, where teamwork and precision decide the champions.

Flytron

Think you have what it takes to rule the skies? Experience the electrifying world of competitive drone racing, where speed meets surgical precision. Pilots must navigate a fast paced aerial obstacle course, it's not just about throttle; it's about control, focus, and instinct.

From seasoned racers to fearless first timers, this is your call to compete, thrill the crowd, and chase drone racing glory.
Soar. Dodge. Dominate the Sky

EVENTS

ROBOTICS EVENTS

Robo Rash

Welcome to RoboRash, the ultimate all terrain robotics challenge. Competing teams must design and operate a mobile robot capable of navigating complex multi surface courses, from sand to gravel to slopes, in record time, with minimum loss of sand , stability and control.

Speed, innovation, and control determine the champions of this high octane journey!

Ground Zero

Explore. Detect. Discover. Conquer!
Step into a disaster stricken world where every discovery matters. In Ground Zero, teams must design and deploy a robotic explorer capable of traversing rugged terrain, overcoming obstacles, and navigating debris filled environments. Your bot must detect and identify critical targets, from metallic objects and valuable resources to signs of human presence hidden beneath the rubble. In a world of limited visibility and constant challenges, only the most intelligent and resilient machines will prevail.

EVENTS

ROBOTICS EVENTS

Buildathon

Got an idea? Build it. Prove it. Own it.

Welcome to Buildathon, where imagination meets execution and innovation takes center stage. This is not just a competition, it's a race against time to turn bold ideas into working solutions.

Armed with creativity, technical skills, and teamwork, participants will brainstorm, design, prototype, and present solutions that tackle real world challenges. Whether it's electronics, hardware, software, automation, or the next big tech breakthrough, every project starts with a single idea and ends with a chance to make an impact.

Think fast. Build smarter. Adapt quicker. The clock is ticking, the challenge is real, and only the most innovative minds will rise to the top.

EVENTS

ROBOTICS EVENTS

Mechlab.io

Mechlab.io, presented by the Automation and Robotics Society, offers students a unique opportunity to engage in hands on learning with industry experts in cutting edge technologies such as Embedded Systems, Internet of Things IoT , Robotic Process Automation RPA , Computer Vision, and Autonomous Systems.

This workshop is designed to provide practical experience and in depth knowledge, allowing students to apply their learning in real world scenarios.

Experience Center

"Step In. Experience the Future."

The Experience Center is an immersive zone where technology comes alive. Explore interactive demos, live robotics showcases, and hands on automation experiences crafted by the Automation and Robotics Society.

Come see. Come touch. Come experience innovation in motion.

EVENT RUNDOWN

Welcoming Ceremony

Inauguration Ceremony of the D^3 fest, along with some special announcements.

TechXpo

Explore live demos of innovative tech products and projects from startups and companies, all in one place!

CraftNCode'26

A 24 hour national coding competition where top talents innovate, collaborate, and tackle real world challenges!

Code Kombat

Team up for a thrilling coding challenge, solving algorithmic puzzles against the clock where strategy & skill reign supreme.

UI UX Showdown

Turn ideas into intuitive digital experiences by designing impactful UI UX solutions for real world problem statements.

EVENT RUNDOWN

Robo Rash

This ultimate endurance challenge pushes bots through a rugged multi surface track, gravel, sand, turf,

CTF Arena

Showcase your cybersecurity skills in defending digital assets and combating cyber threats!

Flytron

Take control of the skies in a thrilling drone race through an obstacle packed aerial course.

Ground Zero

In the wreckage, every choice counts, save the right lives!

Bot Bowl

Command your bots in a fast paced soccer duel where goals, strategy, and control decide the victor.

EVENT RUNDOWN

Buildathon

Turn bold ideas into reality as you design, prototype, and innovate against the clock.

Mechlab.io

A hands on workshop covering Embedded Systems, IoT, RPA, Computer Vision, and Autonomous Systems, led by industry experts with real world applications.

Experience Center

An interactive zone featuring live robotics showcases, automation demos, and immersive tech experiences built by the Automation and Robotics Society.

EVENT RUNDOWN

Workshop.exe

Workshop.exe, part of the D^3 initiative, offers students a unique opportunity to engage in hands on learning with industry experts in cutting edge technologies

Dev Dialogue

Gear up for an inspiring session with industry innovators sharing the latest trends to ignite your tech passion.

BITS OF PAST

Gear up for an inspiring session with industry innovators sharing the latest trends to ignite your tech passion.

Closing Ceremony

Summing up the fest with announcement of a Grand Surprise and prizes.

STATISTICS

The 2025 edition of D^3 Fest marked an even greater milestone, recording over 3,200 registered participants, setting a new benchmark as the highest attendance in the history of IIIT Bhubaneswar. The fest witnessed remarkable engagement, innovation, and collaboration, further strengthening its reputation as one of the most impactful student led tech festivals in the region.

- Participation: The D^3 Fest 2025 was an extraordinary triumph, drawing over 3,200 participants from across India and the flagship event, Rewind and Recode, alone witnessed over 500 registrations from across 15 states and 70 colleges nationwide, highlighting the fest's expanding reach and popularity.
- Unstop and Website Impressions: achieving an impressive 12 Lakh Unstop impressions and 4 Lakh website views.
- Social Media Reach: The fest witnessed massive traction on social media, surpassing 5 Lakh overall reach, with reels and posts garnering between 30K to 200K views, highlighting its widespread popularity and engagement.
- As one of the finest tech fests ever organized, D^3 Fest 2025 brought together brilliant minds, groundbreaking ideas, and unparalleled enthusiasm, further solidifying its legacy as a national level celebration of innovation and collaboration.
